

Call for Artists

Disappearing Frogs Project Exhibition: February 1 - March 3, 2016
North Carolina State University Craft Center
210 Jensen Dr., Raleigh, NC 27606

Disappearing Frogs Project, DFP, is dedicated to creating interactive art installations to raise awareness of the global decline and disappearance of frogs and other amphibians. As a nonprofit organization, DFP inspires artists to address this global decline and take personal action to protect our environment. With a potential extinction at hand, artists can be a bridge to promote public awareness.

Eligibility and Theme: We invite professional and emerging artists and art students (14 and older), who are passionate about art and environmental issues to create art that celebrates amphibians and their environments. How can art combat threats to amphibian survival including habitat loss, over-harvesting for food trade, pollution, pet trade, and emerging infectious diseases. Submit your most convincing piece.

Submission Sizes: 4" x 4," 8" x 8," and 4" x 8." On the surface of your choice, paint, draw, print, sculpt, design, and/or photograph frogs or other amphibians. No border needed.
